

UB Next-Generation Sequencing and Expression Analysis Core Affymetrix Arrays and Reagents Pre-Order Form

This form authorizes the UB Next-Gen Sequencing and Expression Analysis Core to pre-order all consumables and sequencing reagents before samples are received from the researcher. Completion of this form confirms that the researcher is financially responsible for all items ordered for their project even if the researcher does not end up using the arrays and reagents. Please print this form and provide the original signed copy to the UB Next-Generation Sequencing and Expression Analysis Core. We will not pre-order arrays and reagents for a researcher unless this form has been completed and signed.

Array Information*

Type of Array (Example: Mouse Genome 430 2.0 Array) _____

Number of Arrays (arrays must be ordered in multiples of two) _____

***Note: The UB Next-Gen Sequencing and Expression Analysis Core will order the appropriate reagents for a researcher's project based on the type and number of arrays indicated above.**

Required Signatures

The Principle Investigator (PI) that will be paying for the Affymetrix GeneChip Arrays and Reagents and the Research Technician/Student/Post-Doc requesting the reagent pre-order must sign below acknowledging that all of the information provided on the form is correct. Signature of this form acknowledges that the PI and Technician/Student/Post-Doc have read the UB Next-Gen Sequencing and Expression Analysis Core Affymetrix Services Document and agree to all sample submission, quality, quantity, project scheduling, and researcher financial responsibility requirements. Signature of this form authorizes the UB Next-Gen Sequencing and Expression Analysis Core to order all consumables necessary for the researcher's microarray project and confirms that the PI is financially responsible for all items ordered.
